Monaco, February 18, 2021, BLITZ, the chess manga, sponsored by the greatest player in history, Garry Kasparov, returns to the forefront with the release of volume 3.

In this new opus, chess games are redoubled in intensity. Our heroes find themselves confronted with strong personalities, which challenge their nerves and their concentration. How will they come out of this tournament stronger?

The reader finds himself transposed on a real battlefield where each player makes move for move.

Blitz celebrates its first year in the most beautiful way. The 10,000 copies sold in France for Volume 1 have largely been sold! A rare recognition for a new series of manga created outside Japan. Volume 1 is back in print.

Cédric Biscay, Daitaro Nishihara and Tsukasa Mori wished to enrich this volume by proposing original bonuses.

A presentation of the Casino de Monaco, an emblematic place of the Principauté and of manga, which also appears on the back cover.

The discovery of the practice of the Zen method (meditation) by the great Japanese master Sosho Yamada which will be very useful to our heroes during their adventures.

The complete analysis of a part used in the work which allows the reader to better understand the subtleties of this game.

Finally, the new text by Alexis Champion, our intuition specialist, gives the keys to better understand the phenomena present in the manga and which often occur in the real world.

BLITZ always aims to democratize chess by offering ambitious entertainment for everybody. This volume 3 is a new step in this direction!
